

PRESS RELEASE

Paris, October 28th 2015

Fabrice DUMAS, 50, has been appointed President of NOVAE AEROSPACE Industry starting November 1st 2015.

A graduate of ISEP, he began his career in 1989 as engineer on radar observations on test flights of ballistic missiles in Aérospatiale at the Mureaux site. In 1995, he moved on to production and held the position of Project Manager within the Composites Unit of the Mureaux site, then took on the responsibility of the Micromechanical and Pyrotechnical Production Unit in 1998.

At the creation of EADS in 2000, he became Director of Production of the Business Line Equipment at the Mureaux and the Saint-Médard-en-Jalles sites. In 2002, he moved up to Director of Production at the Mureaux site within EADS Space Transportation. Three years later, in 2005, he joined EADS Sogerma at the Rochefort site as Director of Industrial Aerostructures.

He left the Group in 2007 to join SEGULA TECHNOLOGIES as General Director of Manufacturing activities within the AEROSPACE division. Between November 2008 and April 2013, he held the position of President and General Director of EADS SECA and managed the recovery plan of the company and its integration into VECTOR AEROSPACE and EUROCOPTER.

Since May 2013, he has been President General Director of INDUSMECA where he has largely contributed to the restructuring and in the strategic positioning in the Aeronautical and Railway Sectors.

The arrival of Fabrice DUMAS as new President of NOVAE AEROSPACE Industry coincides with the on-going industrial and organizational consolidation of the company, already underway over the last few years. His mission will be to bring all of his managerial and industrial experience in order to develop and implement growth strategy for NOVAE AEROSPACE.

About NOVAE AEROSPACE Industry

Based at the Reims-Prunay airfield, NOVAE AEROSPACE Industry SAS is the integration platform for industrial activities of the NOVAE AEROSPACE group. Specialists in the manufacturing of completely integrated aerostructures – machining, surface treatment and painting, complex assembling – the company implements global out-sourcing production as Tier-1 or Tier-2 for its major clients in the aeronautical and space sectors: Airbus, Daher, Dassault Aviation, Lisi Aerospace, Mecachrome, Sabca, Stelia Aerospace...

About NOVAE AEROSPACE

Established by Sébastien Taveau fifteen years ago and currently headed by Sébastien and Cédric Taveau, the group is developing, in France and internationally, focusing on two industrial and services integrated offers:

- 1/ The manufacturing of complex aerostructures, capitalizing on over 80 years of industrial experience in aircraft construction;
- 2/ Providing services to companies in engineering, production and maintenance of operating conditions of equipment as well as civil and military aircraft.

PRESS RELEASE

Paris, October 28th 2015

(...)

Organized in three operational divisions – INDUSTRY, SERVICES, DEFENSE –, the NOVAE AEROSPACE group has close to 450 employees, in its factories in Reims-Prunay (France), in Brasov (Romania), and in its offices in Paris and Bordeaux (France), Morocco and the United Arab Emirates.

After having registered 35 million euros in sales in 2014, the group is anticipating growth of 15% for 2015 with a goal of exceeding the 50 million euros mark in revenues for 2016.
